Dentist Handbook  
National Processing Policies

Introductory Note

These national processing policies have been revised to reflect data code set requirements set forth under the Administrative Simplification Provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and related regulations. It is the policy of Delta Dental to comply with all such requirements as well as to require all Delta Dental member companies and their participating dentists to comply with such requirements. However, consistent with HIPAA, Delta Dental exercises its right to determine claims reimbursement procedures and requires the processing of such codes in accordance with the following policies, unless prohibited under other applicable law or specific group/individual contract provisions (described below). Notwithstanding, treatment of procedures under the national processing policies, dentists are required to utilize those procedure codes reflective of services rendered and in accordance with HIPAA. Amounts charged under any procedure shall not be inflated or manipulated in light of the processing policies. Delta Dental member companies shall ensure that their application of these processing policies is consistent with their contractual obligations to groups and enrollees.

General Policies

General policies (GP) related to each category of procedure codes precede the category code listing. Policies for specific procedure codes are listed in each category after the codes and nomenclature.

Terms of group/individual contracts vary. Policies in this Handbook that address benefits, limitations and exclusions are "model" policies that have not been tailored to reflect the specific terms of applicable group/individual contracts. This Handbook may not fully or accurately reflect the terms of applicable group/individual contracts, and may be inconsistent with such terms. In all cases, the terms of group/individual contracts take precedence over Dentist Handbook policies. Please contact the member company listed on the patient’s identification card for the specific terms of a group/individual contract.

For the purposes of this manual, the following definitions apply:

**Allowance:** The amount of Delta Dental’s payment for the procedure benefited.

**Approved Amount:** The total fee a participating dentist agrees to accept as payment in full for a procedure. It includes both the Delta Dental allowance and the
patient responsibility. Participating dentists agree not to collect from the patient any difference between the approved amount and their actual fee for the procedure.

**Denied/Deny**

If the fee for a procedure or service is denied, the procedure or service is not a benefit of the patient’s coverage and the approved amount is collectable from the patient. As previously stated, specific group/individual contract provisions take precedence over processing policies. It is recommended that the dental office contact the appropriate member company for the group/individual account to determine the specific benefits, limitations and exclusions.

**Denied/Deny**

If the fee for a procedure or service is denied, the procedure or service is not a benefit of the patient’s coverage and the approved amount is collectable from the patient. As previously stated, specific group/individual contract provisions take precedence over processing policies. It is recommended that the dental office contact the appropriate member company for the group/individual account to determine the specific benefits, limitations and exclusions.

**Disallowed:**

If the fee for a procedure or service is disallowed, it is not benefited by Delta Dental or collectable from the patient by a participating dentist.

**Alternative Benefit:**

In cases where alternative methods of treatment exist, benefits are provided for the least costly, professionally acceptable treatment. This determination is not to recommend which treatment should be provided. It is a determination of benefits under terms of the patient’s coverage. The dentist and patient should decide the course of treatment. If the treatment rendered is other than the one benefited, the difference between Delta Dental’s allowance and the approved amount for the actual treatment rendered is collectable from the patient.

**In Conjunction With:**

In conjunction with means as part of another procedure or course of treatment including, but not limited to, being rendered on the same day.

**Processed as:**

When a procedure is processed as a different procedure, participating dentists agree to accept all the limitations, processing policies, and approved amounts that apply to the procedure Delta Dental benefits.

All services provided to Delta Dental enrollees are subject to the following general policies:

- Documentation of extraordinary circumstances can be submitted for review by report.
- Fees for completion of claim forms and submission of documentation to Delta Dental to enable benefit determination are not benefits. They are not collectable from the patient by a participating dentist.
- Infection control and OSHA compliance are included in the fee for the dental services provided. Separate fees are disallowed and not collectable separately from the patient by a participating dentist.
- Multistage procedures are reported and benefited upon completion. The completion date is the date of insertion for removable prosthetic appliances. The completion date for immediate dentures is the date that the remaining teeth are removed and the
denture is inserted. The completion date for fixed partial dentures and crowns, onlays and inlays is the cementation date regardless of the type of cement utilized. The completion date for endodontic treatment is the date the canals are permanently filled.

- Charges for procedures determined not to be necessary or not meeting generally accepted standards of care may be denied or disallowed. Many of the processing policies that follow detail payment procedures that are based on the timing and sequence of inter-related procedures. However, the timing and sequencing of treatment is the responsibility of the dentist rendering care and should always be determined by the treating dentist based on the patient’s needs.

- When a procedure is by report and subject to coverage under medical, it should be submitted to the patient’s medical carrier first. When submitting to Delta Dental, a copy of the explanation of payment or payment voucher from the medical carrier should be included with the claim, plus a narrative describing the procedure performed, reasons for performing the procedure, pathology report if appropriate, and any other information deemed pertinent. In the absence of such information, Delta Dental will not benefit the procedure.

- The term specialized procedure describes a dental service or procedure that is used when unusual or extraordinary circumstances exist, and is not generally used when conventional methods are adequate.
**DIAGNOSTIC  D0100 - D0999**

Terms of group/individual contracts vary. Policies in this Handbook that address benefits, limitations and exclusions are "model" policies that have not been tailored to reflect the specific terms of applicable group/individual contracts. This Handbook may not fully or accurately reflect the terms of applicable group/individual contracts, and may be inconsistent with such terms. In all cases, the terms of group/individual contracts take precedence over Dentist Handbook policies. Please contact the member company listed on the patient’s identification card for the specific terms of a group/individual contract.

**Clinical Oral Evaluations**

**GP** The number and type of evaluations available for benefits are based on group/individual contract.

**GP** Comprehensive, periodic and periodontal evaluations include but are not limited to a thorough evaluation and recording of the extraoral and intraoral hard and soft tissues. This would include the evaluation and recording of the patient’s dental and medical history and general health assessment. It may typically include the evaluation and recording of dental caries, missing or unerupted teeth, restorations, existing prostheses, occlusal relationships, periodontal conditions (including periodontal charting), hard and soft tissue anomalies, oral cancer evaluation, consultations, diagnosis, treatment planning, screening and assessment of a patient or other procedures typically part of a patient evaluation.

**D0120** Periodic oral evaluation – established patient

The fees for consultation, diagnosis, and routine treatment planning are DISALLOWED as components of the oral evaluation, by the same dentist/dental office.

**D0140** Limited oral evaluation - problem focused

**D0145** Oral evaluation for a patient under three years of age and counseling with primary caregiver

This is not a comprehensive evaluation. Therefore, a comprehensive oral evaluation (D0150) is allowed for the same patient and by the same dentist/dental office at a subsequent date.

Oral evaluation includes any caries susceptibility tests (D0425) or oral hygiene instructions (D1330) provided on the same date. When performed on the same date, any fees for D0425 and D1330 are DISALLOWED.
Benefits for D0145 for a child three years of age or older will be DENIED.

For patients under the age of three, any other comprehensive exam code submitted (D0150, D0160, D0180) is payable as D0145. Subsequent D0145 is D0120.

**D0150** Comprehensive oral evaluation – new or established patient

A comprehensive oral evaluation is payable once per patient per dentist. Additional comprehensive evaluations of any type when billed by the same dentist/dental office are processed as periodic evaluations, and any fee charged in excess of the approved amount for the periodic evaluation is DISALLOWED.

The fees for consultation, diagnosis, and routine treatment planning are DISALLOWED as components of the oral evaluation, by the same dentist/dental office.

If the patient has not received any services for three years from the same dentist/dental office, a comprehensive evaluation may be benefited.

**D0160** Detailed and extensive oral evaluation-problem focused, by report

Detailed and extensive oral evaluation-problem focused, by report is processed as comprehensive oral evaluation (D0150) for the first encounter with the dentist/dental office and subsequent submissions are processed as periodic oral evaluations (D0120).

Any fees in excess of the approved amount for a comprehensive oral evaluation (D0150) or periodic oral evaluation (D0120) are DISALLOWED.

If the patient has not received any services for three years from the same dentist/dental office, a comprehensive evaluation may be benefited.

**D0170** Re-evaluation-limited, problem focused (Established patient, not post-op visit)

The fees for re-evaluation are DISALLOWED in conjunction with any other service or procedure by the same dentist/dental office. When covered, the re-evaluation is subject to the same processing policies as limited oral evaluation-problem focused (D0140).

The fees for re-evaluation are DISALLOWED when submitted by the same dentist/dental office that performed the original procedure.
D0180 Comprehensive periodontal evaluation - new or established patient

A comprehensive periodontal evaluation is payable once per patient, per dentist. Additional comprehensive evaluations of any type when billed by the same dentist/dental office are processed as periodic evaluations, and any fee charged in excess for the approved amount for the periodic evaluation is DISALLOWED.

This evaluation should not be reported in addition to a comprehensive oral evaluation (D0150) by the same dentist/dental office in the same treatment series. This procedure is not intended for use as a separate code for periodontal charting.

If a D0180 is submitted with D4910 by the same dentist/dental office it is benefited as a D0120 and the difference in the approved amount is DISALLOWED unless the D0180 is the initial evaluation by the dentist rendering the D4910.

GP Fees for duplication (copying) of diagnostic images for insurance purposes are DISALLOWED.

GP Fees for non-diagnostic images, as determined by consultant review, are DISALLOWED.

GP Individually listed intraoral radiographic images by the same dentist/dental office are considered a complete series if the fee for individual radiographic images equals or

In all other instances, the fees for interpretation are DISALLOWED.

The FDA/ADA 2012 document Selection of Patients for Radiographic Examinations provides guidance for when the prescription of a full mouth series of radiographs is appropriate. These guidelines state that radiographs are to be prescribed by dentists only after reviewing the patient’s health history and completing a clinical examination. Once a decision to obtain radiographs is made, it is the dentist’s responsibility to follow the ALARA Principle (As Low as Reasonably Achievable) to minimize the patient’s exposure to radiation. For most new patient encounters in dentate adults, and children or adolescents with transitional or permanent dentition, an individualized radiographic exam is appropriate, usually consisting of selected periapical images, posterior bitewings and a panoramic exam. A full mouth intraoral radiographic exam is usually performed when the patient has clinical evidence of generalized dental disease or history of extensive dental treatment. http://www.fda.gov/Radiation-EmittingProducts/RadiationEmittingProductsandProcedures/MedicalImaging/MedicalX-Rays/ucm116504.htm Table 1. from these guidelines is provided here:

GP Periodontal services are only benefited when performed on natural teeth for treatment of periodontal disease. Unless otherwise specified by contract, benefits for these procedures when billed in conjunction with implants, ridge augmentation, extraction sites and/or periradicular surgery are DENIED and the approved amount is collectable from the patient.

GP The fee for biopsy (D7285, D7286), frenulectomy (D7960) and excision of hard and soft tissue lesions (D7410, D7411, D7450, D7451) are DISALLOWED when the procedures are by the same dentist/dental office performed on the same date, same surgical site/area, and any other surgical procedure. Request for individual consideration can always be submitted by report for the dental consultant for review.

GP Laser disinfection is a technique, not a procedure. Fees for laser disinfection are DISALLOWED. If done as a standalone procedure, the benefit for laser disinfection is DENIED and the approved amount is collectable from the patient.
GP The fees for low level laser therapy when performed as part of another procedure are DISALLOWED. When billed as a standalone procedure, benefits for low level laser therapy are DENIED as investigational.

GP Periodontal therapy includes the following: previous periodontal surgery, osseous flap, scaling and root planning.

GP Periodontal charting is considered as part of the oral evaluation (D0120, D0150, D0160, D0180). If periodontal evaluation and oral are billed on the same date of service the fee for the oral evaluation (D0120, D0150, D0160) is a benefit and the fee for the periodontal evaluation is DISALLOWED.

The following categorizes procedures for reporting and adjudicating by quadrant, site or individual tooth in order to enhance standard benefits determination and expedite claims processing.

Radiographs must show loss of alveolar crest height beyond the normal 1-1.5 millimeter distance to the cemento-enamel junction (CEJ). Note: panoramic radiographs per American Academy of Periodontology have limited value in the diagnosis of periodontal disease.

In the case of procedure codes D4341 and D4342 there must be documentation of at least 4mm pockets on the diseased teeth/periodontium involved. In the absence of 4mm. pockets, a benefit allowance for a prophylaxis (D1110) is made and any fee in excess of the approved amount for D1110 is DISALLOWED and not chargeable to the patient.

Prior to periodontal surgery, a waiting period of a minimum of four weeks should typically follow periodontal scaling and root planing to allow for healing and re-evaluation and to assess tissue response.

Quadrant: D4210, D4230, and D4341: Four or more diseased teeth/periodontium distal to the midline are considered a quadrant. Tooth bounded spaces are not counted in making this determination. When these periodontal procedures do not meet all of these criteria use codes D4211, D4231 and D4342 respectively.

D4240, D4260: Four or more diseased teeth/periodontium or bounded tooth spaces distal to the midline are considered a quadrant. A tooth bounded space counts as one space irrespective of the number of teeth that would normally exist in the space. When these procedures do not meet all of these criteria use codes D4241 and D4261 respectively.

Site: a site is defined by the current ADA CDT manual.

Site: D4245, D4249, D4263, D4264, D4265, D4266, D4267, D4270, D4274, and D4275
One to three diseased teeth/periodontium per quadrant: D4211, D4231 D4241, D4261, D4342

Per implant: D6101, D6102, D6103

**Surgical Services (including usual postoperative care)**

**GP** A separate fee for all necessary postoperative care, finishing procedures (D1110, D1120, D4341, D4342, D4355, D4910), evaluations, or other surgical procedures (except soft tissue grafts) on the same date of service or for three months following the initial periodontal surgery in relation to both natural teeth and implants by the same dentist/dental office is DISALLOWED. In the absence of documentation of extraordinary circumstances, the fee for additional surgery or for any surgical re-entry (except soft tissue grafts) by the same dentist/dental office for three years is DISALLOWED.

If extraordinary circumstances are present the benefits will be DENIED and are the patient’s responsibility up to the approved amount for the surgery.

**GP** If periodontal surgery is performed less than four weeks after scaling and root planing, the fee for the surgical procedure or the scaling and root planing may be DISALLOWED following consultant review.

**GP** Periodontally involved teeth which would qualify for surgical pocket reduction benefits under these procedure codes (D4210, D4211, D4240, D4241, D4260, D4261) must be documented to have at least 5 mm pocket depths. If pocket depths are under 5 mm, then benefits are DENIED.

**GP** Benefits for periodontal surgical services are available only when billed for natural teeth. Benefits for these procedures when billed in conjunction with implants, ridge augmentation, extraction sites, periradicular surgery, etc. are DENIED as a specialized or elective procedure.

**GP** Providing more than two D4245, D4265, D4266, D4267, D4268, D4270, D4273, D4275, D4276, D4277, D4278, D6101, D6102, or osseous grafts (D4263, D4264, D6103) within any given quadrant should be highly unusual and additional submissions will only be considered on a by report basis. Requested fees for more than two sites in a quadrant may be DISALLOWED. When documentation of exceptional circumstances is submitted, benefits may be DENIED, unless covered, dependent on group/individual contract language.

D4212  Gingivectomy or gingivoplasty – to allow access for restorative procedures – per tooth

A separate fee for any gingivectomy or gingivoplasty procedure - per tooth is DISALLOWED when performed in conjunction with the preparation of a crown or other restoration by the same dentist/dental office.

Crown lengthening is a benefit per site, not per tooth, when adjacent teeth are included. This procedure is carried out to expose sound tooth structure by removal of bone before restorative or prosthodontic procedures. It is not generally provided in the presence of periodontal disease. This is only a benefit when bone is removed and sufficient time is allowed for healing.

The fees for crown lengthening are DISALLOWED when performed on the same date as the final restoration placement.

D4260  Osseous surgery (including elevation of a full thickness flap and closure) - four or more contiguous teeth or tooth bounded spaces per quadrant.

D4261  Osseous surgery (including elevation of a full thickness flap and closure) – one to three contiguous teeth, or tooth bounded spaces per quadrant.

No more than two quadrants of osseous surgery on the same date of service are benefited, in the absence of a narrative explaining exceptional circumstance.

For benefit purposes, the fee for osseous surgery includes crown lengthening, osseous contouring, distal or proximal wedge surgery, scaling and root planing, gingivectomy, frenectomy, frenuloplasty, debridements, periodontal maintenance, prophylaxis, anatomical crown exposure, surgical drainage and flap procedures. A separate fee for any of these procedures done on the same date, in the same surgical area by the same dentist/dental office, as D4260 is DISALLOWED. A separate benefit may be available for soft tissue grafts, bone replacement grafts, guided tissue regeneration, biologic materials with demonstrated efficacy in aiding periodontal tissue regeneration, exostosis removal, hemisection, extraction, apicoectomy, root amputations.

For dental benefit reporting purposes a quadrant is defined as four or more contiguous teeth and tooth bounded spaces per quadrant.
